

EcotoxicoMic 2020 International Conference

Partnership with the

Frontiers in Microbiology Journal

Conference attendees will benefit from a 40% discount to publish their article in a *Frontiers in Microbiology* Research Topic dedicated to Microbial Ecotoxicology (more details to come on the website)

Final Extended Deadline: April 26th, 2020

- **For abstract submission:** This is the **final deadline** for oral presentation submissions. **Submitting an abstract does not entail any obligation to register** for the conference. **Please don't hesitate to send your abstract** even if you are not sure to participate <https://ecotoxicoMic20.sciencesconf.org/submission/submit>
- **To apply for a free registration grant:** Grants are available for participants from selected countries worldwide <https://ecotoxicoMic20.sciencesconf.org/resource/page/id/15>

EcotoxicoMic Network: How can you contribute?

- Declare yourself as an EcotoxicoMic national contact point to contribute to create an International Steering Committee
- Network **advertising:** include the EcotoxicoMic website in your email signature, visit and share our Facebook, Twitter, LinkedIn and/or ResearchGate pages...
- Include *microbial ecotoxicology* in your **publication key words**

Antimicrobials in constructed wetlands can cause in planta dysbiosis

EcotoxicoMic Network: **What's news in France ?**

80 French scientists and students are member of

EcotoxicoMic, accounting for ~55% of the total members. A **French network steering committee** was established in early 2020. It is composed of 24 members from different Universities and Research Institutes. **Similar international initiatives in partner countries are welcome.** Please don't hesitate to contact us if a support is needed.

Participate to the 7th Croatian Congress of Microbiology with International Participation

Sept. 8-11, 2020 - Sveti Martin na Muri, Croatia

<http://hmd-cms.hr/congress2020/>

These difficult times show us the importance of recognizing all aspects of human, animal and environmental healthcare as one synergistic body "One Health". This international conference is conceived to identify and better understand tight connections that exist between microorganisms and people, animals, plants and their shared environment.

Any ideas or information to share through the EcotoxicoMic website or the mailing list?

Please contact us @ <https://ecotoxicoMic.org/contact-form/>
