

# The international network on Microbial Ecotoxicology

## NEWSLETTER

September 2022

3<sup>rd</sup> International Conference in Microbial Ecotoxicology

### EcotoxicoMic2022

November 15-18, 2022 / Montpellier, France

<https://ecotoxicomic22.sciencesconf.org/>

**Last days for early bird registration!**

Early bird registration is open until September 10<sup>th</sup>, 2022

	Early Bird	After Sept. 10 <sup>th</sup>
Registration fees	350 € (student: 250€)	450 € (student: 350€)
Conference dinner	60 € (student: 45€)	75 € (student: 60€)

Abstract submission for posters is still open  
Deadline = September 30<sup>th</sup>, 2022

### Discover the scientific program

EcotoxicoMic2022 will take place in Montpellier from November 15<sup>th</sup> PM until November 18<sup>th</sup> AM. During the 6 half-days, the **scientific program** will include:

- 7 keynote conferences,
- 3 regular and 3 special sessions,
- 3 invited talks by young researchers awarded during the EcotoxicoMicYR2021 webinar
- 33 oral communications
- More than 55 posters (new submissions are welcome)

Detailed list of oral presentations:

<https://ecotoxicomic22.sciencesconf.org/resource/page/id/18>

## Submit your article to the FEMS MICROBIOLOGY ECOLOGY Thematic Issue on Microbial Ecotoxicology

This thematic issue will discuss recent advances in microbial ecotoxicology, including:

- the impact of chemical, environmental and biological stressors on microbial diversity, microbial processes, and species interactions, and the overall response to contamination by microorganisms at individual, population and community levels;
- the role of microbial strains and communities on contaminant dynamics and bioremediation;
- The use of microbial bioindicators, biomarkers, bioassays and biosensors to assess environmental risks of contaminants in various ecosystems.

Original research papers and mini-reviews can be submitted to this issue.

**Guest Editors:** Lise Barthelmebs (Univ. of Perpignan, France), Natàlia Corcoll (Univ. of Gothenburg, Sweden), Marina Hery (Univ. of Montpellier, France), Dimitrios Karpouzas (Univ. of Thessaly, Greece), Stéphane Vuilleumier (Univ. of Strasbourg, France), Lucas Wick (Helmholtz Centre for Environmental Research, Leipzig, Germany)

Submission deadline: January 2023 / [https://academic.oup.com/femsec/pages/call\\_for\\_papers](https://academic.oup.com/femsec/pages/call_for_papers)

The Federation of European Microbiological Societies (FEMS) supports the EcotoxicoMic2022 international conference by providing travel grants for young researchers.

## Federating young researchers in microbial ecotoxicology

One of the objectives of the EcotoxicoMic network is to promote research and initiatives from young researchers (YR) and to reinforce their own networking at the international scale.

Congrats to the EcotoxicoMicYR board for their freshly published article in *Environmental Science and Pollution Research (ESPR)* : <https://doi.org/10.1007/s11356-022-22410-4>

EcotoxicoMicYR will organize a social evening during the EcotoxicoMic2022 conference. This will be a great opportunity for YR from different labs and countries to meet and share experiences.

Every PhD students and Post-Docs interested in joining the EcotoxicoMicYR board are warmly invited to send an email @ [ecotoxicomicyr@gmail.com](mailto:ecotoxicomicyr@gmail.com)

Any ideas or information to share through the EcotoxicoMic newsletter, website or mailing list?
