

EcotoxicoMic Young Researchers webinar series

13th, 20th, 27th of October and, 3rd of November 2025

Monday afternoon (Paris time zone)

Discover the program and register for free

<https://yr2025.sciencesconf.org/>

Participation is open to everyone, not only young researchers!

5 Scientific Sessions

4 Keynotes

24 Live Presentations

12 Posters or Flash Presentations

- Microbiome host interactions
- Effects of contaminants on microorganisms: from species to communities
- New methods and approaches in microbial ecotoxicology
- Microbial bioprocesses and bioremediation
- Antimicrobial resistance

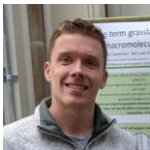

Keynote Speakers

Tamara Tal

13th October – 1:45 pm (French hour)

Exploring chemical-microbiome interactions in zebrafish

Christopher Sweeney

27th October – 1:35 pm (French hour)

Title to be announced

Clémence Thiour Mauprivez

20th October – 1:35 pm (French hour)

Effects of microplastics on bacterial communities in agricultural soils

Edward Topp

3rd November – 1:25 pm (French hour)

Impacts of humans on the environmental resistome and mobilome

Other information

Ecotoxicomicro YR Meme Contest 2025

This contest aims to celebrate humor, creativity and daily scientific life within our community of microbial ecotoxicologists. **Memes*** are a fun way to share the reality of research, from lab benches to data analysis struggles. We are looking forward to your most creative, funny and scientifically inspired **memes**.

Submission deadline: October 6th, 2025

<https://ecotoxicomicro.org/ecotoxicomicro-yr-meme-contest-2025/>

(***Meme**: A meme is an image accompanied by humorous text that illustrates a concept, idea, or recurring situation ; in this case, related to microbial ecotoxicology or the everyday life of scientists in the lab)

Free Online Conferences

Two conferences, organized as part of the **1st EcotoxicoMic Research School**, will be streamed live via videoconference.

Don't miss the opportunity to attend these two presentations for free!

Joan Artigas

6th October – 2:15 pm (French hour)

Introduction to functional microbial ecotoxicology

<https://inrae-fr.zoom.us/j/3081108957?omn=95845718318>

Aurélie Cébron

10th October – 11:15 am (French hour)

Applying microbial traits in ecotoxicology

<https://inrae-fr.zoom.us/j/3081108957?omn=93556997272>

Save the date

The 5th EcotoxicoMic International Conference

will be held 12-14th of October 2026 in Thessaloniki, Greece.
