Free EcotoxicoMic International Webinar

It's the nutrients: how they drive ecotoxicological effects on autotrophic microorganisms

September 18, 3:00 pm CEST

Invited Talk #1:

Are regulatory culture media inhibiting the observation of stimulatory effects?

Dr. Verónica Laura Lozano
National Scientific and Technical
Research Council (CONICET),
University of Salta, Argentina

Invited Talk #2:

Ivermectin effects under low and replete nitrogen

Dr. Mathias Ahii Chia
University of São Paulo, Brazil

Chairs: Dr. Giulia Cheloni (SZN, Italie) and Dr. Elisa Catão (University of Toulon, France)
Free registration! More information coming soon on the EcotoxicoMic network website.

The EcotoxicoMic network wishes its entire community a wonderful summer break and looks forward to meeting many of you in Greece for enriching exchanges!
